

RENEWABLE OLEOCHEMICAL SOLUTIONS

CREMERLIN® PURA

CREMERLIN® PURA IS BASED ON 100% RENEWABLE VEGETABLE RAW MATERIALS AND IS MANUFACTURED IN GERMANY USING A PATENTED PROCESS.

Cremerlin® PURA is a purely vegetable cream base made from a blend of natural triglycerides. Due to its high degree of occlusivity and the associated low transepidermal moisture loss (TEWL) Cremerlin® PURA has properties similar to petrolatum. This makes it ideally suited for use in rich creams where conventional petrolatum was previously used. The light emulsion leaves the skin feeling rich without being sticky.

A low iodine and acid value provide high oxidative stability, allowing it to be easily used for 36 months or longer in a variety of cosmetic formulations.

A PLANT-BASED ALTERNATIVE TO PETROLATUM

- » Blend Of 87.5 Medium Chain Triglyceride (MCT) & 12.5% Hydrogenated Rapeseed Oil
- » Purely Vegetable Cream Base
- » Properties Similar To Petrolatum But Less Sticky
- » Ideally Suited For Use In Rich Creams
- » Food Compliant, Therefore Very Suitable For The Use In Care Products For Mother & Baby/Child & Lip Care
- » Can Be Further Refined In Hot & Cold Process
- » Compatible With Other Cosmetic Oils & Fats
- » RSPO License No. 2-161-25-000-00

VARIETIES

- » **CremerlinPURA Vegetable Cosmos/Natrue Non-Organic RSPO/MB**

CAS No. 73398-61-5 / 68334-28-1

» INCI:

Caprylic/Capric Triglyceride and Hydrogenated Rapeseed Oil

SUSTAINABILITY PROFILE

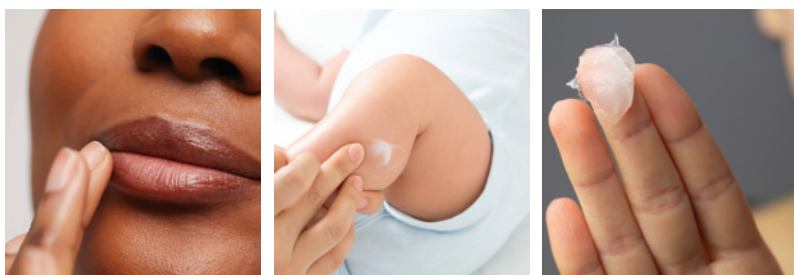

- » Blend of Natural Triglycerides
- » 100% Renewable Vegetable Raw Materials
- » Odorless, Allergen-Free, Biodegradable

SUPPLY CHAIN SERVICES

- » Manufactured In Neuss, Germany
- » Patented Production Process
- » 2-3 Campaigns A Year (Approx. 20mt)
- » Packing 25kg Buckets
- » 18 X 25 Buckets = 450kg Per Pallet
- » MOQ = 25kg

CERTIFICATIONS

- » Kosher Compliant
- » Halal Certified
- » HACCP
- » RSPO/MB
- » Ecocert Non-Organic Approved
- » NATRUE Non-Organic Approved
